Mr. Ron Nief

Middlebury College
Middlebury, Vermont

Dear Ron:

This, as you asked, will spell out the terms under which Associated Press services could be made available to Station WRMC FM at Middlebury College.

The AP Broadcast Wire is furnished to educational, non-commercial stations under two plans - for full or partial broadcast years.

The charge for a station operating 52 weeks a year is $2,540.00 yearly, or $48.85 weekly, payable in a lump sum.

Stations with limited broadcast years may purchase AP Broadcast Wire service under a plan that allows for two suspensions yearly. Under this plan the rate would be $57.35 weekly, payable monthly. A two year contract is required.

AP's news service in sound - known as AP Radio - could be delivered to WRMC FM for the minimum rate of $82.65 weekly.

only 52 wks/year

These are complete prices for service delivered via standard teletype. The price includes installation, teletype maintenance, paper and ribbons, shipment of supplies and wire lease. For reception by Extel printer, there would be a surcharge of $10.00 weekly.

The service we furnish college stations is the complete AP Broadcast Wire Report and the entire AP Radio production. The contents of the wire are listed in the back of the enclosed Style Book, and the attached brochure should contain what you need to know about AP Radio.

I'll stay tuned for any further questions you might have. I thank you for your interest and hope we can be of service to WRMC FM.

Sincerely

MEMORANDUM

To: Jackie Flickinger April 17, 1979

CC: Don Kreis

From: Ron Nief

Here is some general information on the AP news service. We should be getting a letter by the end of this week which will outline everything in detail.

The AP offers a special rate for noncommercial stations.

1. Basic Teletype Service

a. full broadcast year - $2,540 ($48.85 weekly). This covers all needs for the basic teletype service - line, supplies, ribbons, maintenance, etc.

b. limited service - (this includes 2 suspensions of service during the year - each suspension must be for a period no less than 2 weeks) - $57.35 per week.

2. Audio Service

The audio services are only supplied on a 52 week year basis. Total cost is $82.65 per week (this would be $4,297.80 per year). This covers availability, line costs, etc.

The audio service provides a full-scale news operation:

a. 5 minute news broadcast on the hour
b. half-hour feed of actualities (many of which are used in the hourly news cast but are available for other purposes - they are billboarded on the broadcast wire)
c. sports update at quarter past the hour - 8 times a day
d. business barometer - 8 times a week
e. a wide variety of feature material
   Weekend features
   Public Affairs features
   "Town Meeting of the Year"
f. Northeastern regional news feed - twice daily
g. live coverage of all presidential news conferences.

AP audio plans within the year to be on a satellite feed. Currently it is on a 3kc line; it will go to a 5kc line when the satellite installation is in.

I will forward all additional material when it comes in later this week. I hope this is helpful.

INTEROFFICE MEMORANDUM

To: Rusty Martin

July 20, 1979

cc: Dean Perry
Mr. Ginevan
Mrs. Flickinger

From: Carroll Rikert, Jr.

Subject: AP CONTRACT

I have at your request, relayed to me by Jackie Flickinger, reviewed the proposed contract with "Press Association, Inc.". I have in so doing confined myself to the contract as a legal document, and left entirely to others the business questions involved in the proposed switch from UPI to AP and any political questions involved if the local radio station (WFAD) uses UPI.

From the standpoint of legal relationships and obligations, I would say the proposed agreement will be in order for signature when the following has been done:

1. The title of the officer of the Corporation (The President and Fellows of Middlebury College) has been typed on the bottom line and his name just above it under the signature line. (The College seal will need to be applied to both copies over the signature of the executing Corporate officer.)

2. The material typed in on the first blank line at the top is retyped to correspond exactly, and in every particular, with the data now typed in caps above the signature line at the bottom.

3. In Section 5, the first blank be filled in "WRMC FM" and the second, in place of "WRMC", the word SUBSCRIBER. The change in the first blank conforms the reference to the station to what is used elsewhere in the contract. The second takes into account the fact that it is a College function, as the legally responsible party and signer of the contract, to give the notices the contract requires.

College responsibility here, and in giving the notices involved in Section 6 and in undertaking the obligations involved in Sections 2, 7, and 8, is very clear. There are other College WRMC FM obligations and concerns which are of equal (or greater) importance which may not be so clear. The execution of a contract of this sort gives an occasion for recognition of these. I have expressed to Dean Perry my hope that this will be achieved through the sub-committee of which he is a member.

May I say in passing that I don't like the provision of the last line of Section 2, but don't see any way it can be avoided. We can just hope the matter won't come up. The notices required by Sections 5 and 6, and the potential penalty in Section 7, call for close enough liaison and followup by the designated College officers to avoid difficulties and unintended expense charges.

Section 8, by contrast, seems to me to impose a different sort of obligation on the part of appropriate College officials. An example would be to assure, for instance, that the Campus not publish anything in contravention of the terms of this agreement.

Whether the date of execution is filled in by the Corporation officer executing this for the College or by the Press Association officer who executes it subsequently is a matter to be determined by contacts with the latter, to which I have not been made privy. I would like a copy of the document in the executed form in which it leaves here. Thanks.

Carroll Rikert

Carroll Rikert, Jr.
Treasurer

P.S. I shall be able to give the correspondingly requested clearance for the "Supplemental Agreement for Audio News Service" as soon as I am furnished with a copy of the Membership Agreement. From the fact that it is with Associated Press vs. Press Association, Inc. and from reference in paragraph C of the Supplemental Agreement to Article 10, I judge this to be something different from and in addition to the contract referred to above.

Meanwhile, let me say that the same things will also apply as indicated above, to wit:

P-40

1. Executing Corporation officer to be identified by typing of his name and Corporation title, and the seal applied over his signature.
2. Typed material in top line conformed to bottom line - i.e., "AND" vs. "&", "College"vs. "Col."
3. In b-1. on the obverse side:
   (1) "WRMC FM" to be typed on first line - has been done on one copy but not the other.
   (2) In the third line, the words "Station WRMC FM" must be replaced by "the Member".
4. Dating.

In addition, the executing Corporation officer and the official who executes this for the Associated Press must each initial both b-1. on the obverse side and in the margin each of the two ink changes in b.

Mr. Roger Martin
Executive Assistant
To The President
Middlebury College
Middlebury, Vermont

Dear Mr. Martin:

In compliance with instructions relayed by Ms. Flickinger, here are blank copies of the agreements under which Associated Press Broadcast Wire service and Associated Press Radio (audio) service would be provided to Station WRMC FM at Middlebury College.

First I should explain why the basic agreement is written with "Press Association" rather than with "The Associated Press."

Press Association is a wholly-owned subsidiary of The Associated Press. Press Association buys service from The Associated Press and makes it available to subscribers such as educational institutions under rate and term conditions that do not meet the minimal requirements of regular AP Membership.

However, use of the PA rather than the AP form has no effect whatever on the type of service rendered. AP Broadcast Wire service under PA is similar in content to Broadcast Wire service under AP.

As you noted, this does make for an inconsistency between the basic and the supplemental agreement ... with one referring to Press Association and the other to the Membership Agreement. I suggest you reconcile this by striking "Membership" and changing "Member" to "Subscriber" in the supplemental form.

Ms. Flickinger said you also had some concern about the tax liability phrase in Section 2 of the basic agreement. Please consider that to be academic because there is no such tax in Vermont.

I trust this gives you all you need to proceed with execution of the agreements (which we will date upon countersigning.)

Many thanks for your cooperation.

SUPPLEMENTAL AGREEMENT FOR AUDIO NEWS SERVICE

This agreement supplements the Membership Agreement between The Associated Press ("AP") and President & Fellows of Middlebury Col, the owner(s)-licensee(s) of its station(s) WRMC FM, Middlebury, Vermont. . Except to the extent inconsistent herewith, all provisions of the Membership Agreement are incorporated herein and shall remain applicable to the parties throughout the term of this agreement. (References to the "Service" shall be deemed also to apply to the audio news service.)

a. AP agrees to grant the Member access to an audio news service which the Member may use only for the purposes of broadcasting through the facilities of the above station(s), and for which the Member agrees to pay an additional assessment. Notwithstanding paragraph 4 of the Membership Agreement, the Member will assume the responsibility and expense of providing its own equipment for the audio news service and of transmitting this service to the above station(s) from the nearest communication point to which AP regularly transmits it. If requested by the Member, however, AP will arrange on the basis set forth in paragraph "d" for transmission of the audio news service from such nearest point to the above station(s).

b. This supplemental agreement shall be effective as of September 2, 1979, or the the first date upon which AP actually provides access to the audio service to the Member, whichever is earlier. This agreement shall continue in effect for a term of two years following the first date upon which the audio service is furnished hereunder to the Member. It shall remain in effect for successive two-year terms, unless terminated as provided herein. Either party may terminate this agreement, effective at the end of the first or any subsequent term, by written notice submitted to the other by certified mail, return receipt requested, not less than six months prior to the end of such term. See b-1 on reverse.

For the purposes of Article 10 of the Membership Agreement, the additional weekly assessments applicable to each separate business on account of the audio news service, notwithstanding the amount specified in this paragraph and unless they are otherwise fixed by the AP Board of Directors as provided in the By-Laws of AP, shall be $ n/a , AM; and $ 43.30 , FM.

d. If the Member requests AP to arrange for transmission of the audio news service to the above station(s) from the nearest communication point to which AP regularly transmits it, the Member shall also reimburse AP in advance an amount determined by AP. This reimbursement shall total (2) $ 39.35 weekly unless altered as provided below, and shall be remitted to AP along with the Member's weekly assessments. (Failure to remit reimbursements shall be deemed to be a failure to pay assessments.) AP may alter the amount of the reimbursement only if its delivery expenses increase as a result of changes in communications tariffs or in the nearest communication point to which AP regularly transmits the audio service, or otherwise. The amount of the reimbursement may then be varied accordingly, and, in any such event, the last sentence of Article 8 of the Membership Agreement shall not apply. The Member may at any time, upon 30 days' prior written notice, withdraw its request that AP arrange for the transmission specified in this paragraph, and thereafter the Member shall continue to remit to AP only the additional assessments as set forth in paragraph "c".

The term of this agreement shall be for a period of two years, commencing on September 2, 1979 and unless terminated as hereinafter provided, it shall continue in effect for successive like periods. 7. If the Subscriber shall fail to pay the monthly charges provided for in Article 4 hereof, when due, or shall fail to fulfill any other obligation under this agreement, the news service hereunder may be suspended and the Subscriber shall be liable to Press Association for the total amount of the charges provided for in Article 4 hereof, for the balance of the term provided for in Article 6 hereof, less the expenses which Press Association would have incurred during this period in connection with wire service charges and other expenses of physically delivering the news service to the Subscriber.

8. The news report to be furnished by Press Association shall be used by the Subscriber solely for classroom study purposes and/or for non-commercial broadcasting purposes through the facilities of WRMC FM The Subscriber hereby agrees that it will not publish the news report and that it will not give or sell to, or authorize the use by, any other person, firm or corporation of the news report or of any of the news, information or intelligence furnished by Press Association hereunder.

9. Press Association shall not be liable to the Subscriber for any loss or damage resulting from the interruption or suspension of the automatic printer service, to be provided, by reason of mechanical breakdowns, strikes, or other causes beyond its control, and Press Association shall not be liable to the Subscriber for any loss or damage to, or for any claims made against the Subscriber arising or resulting from the use by the Subscriber of the news report furnished by Press Association.

IN WITNESS WHEREOF, the parties hereto have executed this agreement the 6th day of August 19 79

INTEROFFICE MEMORANDUM

To: Rusty Martin July 20, 1979

cc: Dean Perry
Mr. Ginevan
Mrs. Flickinger

From: Carroll Rikert, Jr.

Subject: AP CONTRACT

I have at your request, relayed to me by Jackie Flickinger, reviewed the proposed contract with "Press Association, Inc.". I have in so doing confined myself to the contract as a legal document, and left entirely to others the business questions involved in the proposed switch from UPI to AP and any political questions involved if the local radio station (WFAD) uses UPI.

From the standpoint of legal relationships and obligations, I would say the proposed agreement will be in order for signature when the following has been done:

1. The title of the officer of the Corporation (The President and Fellows of Middlebury College) has been typed on the bottom line and his name just above it under the signature line. (The College seal will need to be applied to both copies over the signature of the executing Corporate officer.)

2. The material typed in on the first blank line at the top is retyped to correspond exactly, and in every particular, with the data now typed in caps above the signature line at the bottom.

3. In Section 5, the first blank be filled in "WRMC FM" and the second, in place of "WRMC", the word SUBSCRIBER. The change in the first blank conforms the reference to the station to what is used elsewhere in the contract. The second takes into account the fact that it is a College function, as the legally responsible party and signer of the contract, to give the notices the contract requires.

College responsibility here, and in giving the notices involved in Section 6 and in undertaking the obligations involved in Sections 2, 7, and 8, is very clear. There are other College WRMC FM obligations and concerns which are of equal (or greater) importance which may not be so clear. The execution of a contract of this sort gives an occasion for recognition of these. I have expressed to Dean Perry my hope that this will be achieved through the sub-committee of which he is a member.

May I say in passing that I don't like the provision of the last line of Section 2, but don't see any way it can be avoided. We can just hope the matter won't come up. The notices required by Sections 5 and 6, and the potential penalty in Section 7, call for close enough liaison and followup by the designated College officers to avoid difficulties and unintended expense charges.

The change in the first blank conforms the reference to the station to what is used elsewhere in the contract. The second takes into account the fact that it is a College function, as the legally responsible party and signer of the contract, to give the notices the contract requires.

The notices required by Section 7, call for close enough liaison and following potential penalty in the destgnated College officers to avoid difficulties and unintended expense charges.

Section 8, by contrast, seems to me to impose a different sort of obligation on the part of appropriate College officials. An example would be to assure, for instance, that the Campus not publish anything in contravention of the terms of this agreement.

Whether the date of execution is filled in by the Corporation officer executing this for the College or by the Press Association officer who executes it subsequently is a matter to be determined by contacts with the latter, to which I have not been made privy. I would like a copy of the document in the executed form in which it leaves here. Thanks.

P.S. I shall be able to give the correspondingly requested clearance for the "Supplemental Agreement for Audio News Service" as soon as I am furnished with a copy of the Membership Agreement. From the fact that it is with Associated Press vs. Press Association, Inc. and from reference in paragraph C of the Supplemental Agreement to Article 10, I judge this to be something different from and in addition to the contract referred to above.

Meanwhile, let me say that the same things will also apply as indicated above, to wit:

1. Executing Corporation officer to be identified by typing of his name and Corporation title, and the seal applied over his signature.

P-40

2. Typed material in top line conformed to bottom line - i.e., "AND" vs. "&", "College"vs. "Col."

3. In b-1. on the obverse side:

   (1) "WRMC FM" to be typed on first line - has been done on one copy but not the other.

   (2) In the third line, the words "Station WRMC FM" must be replaced by "The member".

4. Dating.

In addition, the executing Corporation officer and the official who executes this for the Associated Press must each initial both b-1. on the obverse side and in the margin each of the two ink changes in b.

SUPPLEMENTAL AGREEMENT FOR AUDIO NEWS SERVICE

This agreement supplements the Agreement between Press Association, Inc. and The President and Fellows of Middlebury College, the owner-licensee of its station WRMC FM, Middlebury, Vermont. Except to the extent inconsistent herewith, all provisions of the Agreement are incorporated herein and shall remain applicable to the parties throughout the term of this agreement. (References to the "Service" shall be deemed also to apply to the audio news service.)

a. PA agrees to grant the Subscriber access to an audio news service which the Subscriber may use only for the purposes of broadcasting through the facilities of the above station, and for which the Subscriber agrees to pay an additional assessment. Notwithstanding paragraph 4 of the Agreement, the Subscriber will assume the responsibility and expense of providing its own equipment for the audio news service and of transmitting this service to the above station from the nearest communication point to which PA regularly transmits it. If requested by the Subscriber, however, PA will arrange on the basis set forth in paragraph "d" for transmission of the audio news service from such nearest point to the above station.

b. This supplemental agreement shall be effective as of September 2, 1979, or the first date upon which PA actually provides access to the audio service to the Subscriber, whichever is earlier. This agreement shall continue in effect for a term of two years following the first date upon which the audio service is furnished hereunder to the Subscriber. It shall remain in effect for successive two-year terms, unless terminated as provided herein. Either party may terminate this agreement, effective at the end of the first or any subsequent term, by written notice submitted to the other by certified mail, return receipt requested, not less than six months prior to the end of such term.

It is agreed that service to Station WRMC FM may be suspended not more than twice annually during vacation months and that the Subscriber will advise Press Association, Inc. at least thirty days prior to the beginning of such vacation as to the dates of suspension, provided such suspension exceeds twenty one days.

It is further understood and agreed that WRMC FM will be liable for payment of a telephone circuit maintenance charge of $25.00 per month during any vacation period suspension of the audio service.

c. The additional assessment payable by the Subscriber for the access to the audio news service shall be (1) $43.30 weekly, unless otherwise fixed by the Board of Directors of PA as provided in the PA By-Laws. The Subscriber's right of termination as set forth in Article 8 of the Agreement shall apply similarly to variations in these additional assessments. The additional weekly assessments applicable to each separate business on account of the audio news service shall be $ n/a , AM: and $43.30, FM.

d. If the Subscriber requests PA to arrange for transmission of the audio news service to the above station from the nearest communication point to which PA regularly transmits it, the Subscriber shall also reimburse PA in advance an amount determined by PA. This reimbursement shall total (2) $39.35 weekly unless altered as provided below, and shall be remitted to PA along with the Subscriber's weekly assessments. (Failure to remit reimbursements shall be

deemed to be a failure to pay assessments.) PA may alter the amount of the reimbursement only if its delivery expenses increase as a result of changes in communications tariffs or in the nearest communication point to which PA regularly transmits the audio service, or otherwise. The amount of the reimbursement may then be varied accordingly, and, in any such event, the last sentence of Article 8 of the Agreement shall not apply. The Subscriber may at any time, upon 30 days' prior written notice, withdraw its request that PA arrange for the transmission specified in this paragraph, and thereafter the Subscriber shall continue to remit to PA only the additional assessments as set forth in paragraph "c".

I have your note of August 10 with signed Press Association photocopies enclosed.

I would, however, like some clarification of your request that "any communication" between the College and Associated Press/Press Association be made through you.

In the past we have referred to you or your predecessor for signature all papers having to do with basic major contracts (like the change to AP service) or legal responsibility (like license renewals).

Matters concerned with day-to-day operation of the station have been handled through this office and in some instances through Purchasing. I will, for instance, be calling AP this week to arrange a time for installation of their equipment in the WRMC studio, and as soon as the Purchasing Agent returns from vacation, we shall be issuing papers for monthly payment and for dates of suspension of service during vacation periods. I would assume that you would not feel it necessary for your office to be involved in this type of communication with AP.

RE: WRMC

Jackie:

Enclosed are the copies of the signed documents from Press Association. Please note that any communication between WRMC and either the Press Association or the Associated Press, should be made through my office. I don't mean to be officious about this, but the Trustees legally hold WRMC's license and, as Assistant Secretary, I represent the Trustees.

Thank you for your help.

Dear Mr. Martin:

In compliance with instructions relayed by Ms. Flickinger, here are blank copies of the agreements under which Associated Press Broadcast Wire service and Associated Press Radio (audio) service would be provided to Station WRMC FM at Middlebury College.

First I should explain why the basic agreement is written with "Press Association" rather than with "The Associated Press."

Press Association is a wholly-owned subsidiary of The Associated Press. Press Association buys service from The Associated Press and makes it available to subscribers such as educational institutions under rate and term conditions that do not meet the minimal requirements of regular AP Membership.

However, use of the PA rather than the AP form has no effect whatever on the type of service rendered. AP Broadcast Wire service under PA is similar in content to Broadcast Wire service under AP.

As you noted, this does make for an inconsistency between the basic and the supplemental agreement ... with one referring to Press Association and the other to the Membership Agreement. I suggest you reconcile this by striking "Membership" and changing "Member" to "Subscriber" in the supplemental form.

Ms. Flickinger said you also had some concern about the tax liability phrase in Section 2 of the basic agreement. Please consider that to be academic because there is no such tax in Vermont.

I trust this gives you all you need to proceed with execution of the agreements (which we will date upon countersigning.)

Many thanks for your cooperation.

This will regretfully acknowledge your August 2, 1979, letter advising that WRMC will not be renewing the agreement covering the UPI broadcast news and audio services.

As we discussed, the increase in rates was due entirely to AT&T rate increases. We would appreciate the opportunity of bidding for your business next year when the line haul cost might be reduced by the addition of closer subscribers in your area.

Service will be discontinued and the equipment removed as of August 24.

It has been a pleasure to be of service.

FROM: Roger Martin

RE: WRMC

In response to your memorandum of 13 August, and to reiterate our subsequent conversation, any contact between the College and outside agencies like the Press Association which involve a contractual relationship between that agency and the President and Fellows of Middlebury College should come from my office. The day to day operation of the radio station, not involving matters of a contractual or legal nature would, of course, still be handled through your office.

Inter-Office Memo

MIDDLEBURY COLLEGE

MIDDLEBURY, VERMONT

TO Roger Martin

FROM J. Flickinger

SUBJECT WRMC

DATE August 13, 1979

I have your note of August 10 with signed Press Association photocopies enclosed.

I would, however, like some clarification of your request that "any communication" between the College and Associated Press/Press Association be made through you.

In the past we have referred to you or your predecessor for signature all papers having to do with basic major contracts (like the change to AP service) or legal responsibility (like license renewals).

Matters concerned with day-to-day operation of the station have been handled through this office and in some instances through Purchasing. I will, for instance, be calling AP this week to arrange a time for installation of their equipment in the WRMC studio, and as soon as the Purchasing Agent returns from vacation, we shall be issuing papers for monthly payment and for dates of suspension of service during vacation periods. I would assume that you would not feel it necessary for your office to be involved in this type of communication with AP.

Subject: WRMC/PRESS ASSOCIATION

The best suggestion I can make in response to your August 13 memo grows out of my being a church historian and yours being clerk of the Congregational Church: "Render unto Caesar that which is Caesar's and unto God that which is God's".

In this Press Association relationship, as with all others involving WRMC, you and I share different parts of the same responsibility. This responsibility is central to the fact that the license is in the name of the Corporation and the President and Trustees are liable for anything which does not go property. We both are charged with maintaining distinctions which are clearer and more important to the President and Trustees than to the students.

I am confident that by working together we can maintain this distinction without causing irritation to the students or a burden for either of us. There is no need for me to be involved in things like phone lines, as I am sure you can appreciate. But at the same time it will be necessary for me to give formal notices which the contractual relationship between the Corporation and outside entities like Press Association require.

4. The Subscriber shall pay to Press Association for the right to receive and use the news report, as hereinafter provided, the sum of $ 57.35 per week, which sum shall be payable monthly in advance. The monthly charge may be increased by not more than 25 per cent during any two year period.

SUPPLEMENTAL AGREEMENT FOR AUDIO NEWS SERVICE

This agreement supplements the Agreement between Press Association, Inc. and The President and Fellows of Middlebury College, the owner-licensee of its station WRMC FM, Middlebury, Vermont. Except to the extent inconsistent herewith, all provisions of the Agreement are incorporated herein and shall remain applicable to the parties throughout the term of this agreement. (References to the "Service" shall be deemed also to apply to the audio news service.)

a. PA agrees to grant the Subscriber access to an audio news service which the Subscriber may use only for the purposes of broadcasting through the facilities of the above station, and for which the Subscriber agrees to pay an additional assessment. Notwithstanding paragraph 4 of the Agreement, the Subscriber will assume the responsibility and expense of providing its own equipment for the audio news service and of transmitting this service to the above station from the nearest communication point to which PA regularly transmits it. If requested by the Subscriber, however, PA will arrange on the basis set forth in paragraph "d" for transmission of the audio news service from such nearest point to the above station.

b. This supplemental agreement shall be effective as of September 2, 1979, or the first date upon which PA actually provides access to the audio service to the Subscriber, whichever is earlier. This agreement shall continue in effect for a term of two years following the first date upon which the audio service is furnished hereunder to the Subscriber. It shall remain in effect for successive two-year terms, unless terminated as provided herein. Either party may terminate this agreement, effective at the end of the first or any subsequent term, by written notice submitted to the other by certified mail, return receipt requested, not less than six months prior to the end of such term.

It is agreed that service to Station WRMC FM may be suspended not more than twice annually during vacation months and that the Subscriber will advise Press Association, Inc. at least thirty days prior to the beginning of such vacation as to the dates of suspension, provided such suspension exceeds twenty one days.

It is further understood and agreed that WRMC FM will be liable for payment of a telephone circuit maintenance charge of $25.00 per month during any vacation period suspension of the audio service.

c. The additional assessment payable by the Subscriber for the access to the audio news service shall be (1) $43.30 weekly, unless otherwise fixed by the Board of Directors of PA as provided in the PA By-Laws. The Subscriber's right of termination as set forth in Article 8 of the Agreement shall apply similarly to variations in these additional assessments. The additional weekly assessments applicable to each separate business on account of the audio news service shall be $ n/a , AM: and $43.30, FM.

d. If the Subscriber requests PA to arrange for transmission of the audio news service to the above station from the nearest communication point to which PA regularly transmits it, the Subscriber shall also reimburse PA in advance an amount determined by PA. This reimbursement shall total (2) $39.35 weekly unless altered as provided below, and shall be remitted to PA along with the Subscriber's weekly assessments. (Failure to remit reimbursements shall be

deemed to be a failure to pay assessments.) PA may alter the amount of the reimbursement only if its delivery expenses increase as a result of changes in communications tariffs or in the nearest communication point to which PA regularly transmits the audio service, or otherwise. The amount of the reimbursement may then be varied accordingly, and, in any such event, the last sentence of Article 8 of the Agreement shall not apply. The Subscriber may at any time, upon 30 days' prior written notice, withdraw its request that PA arrange for the transmission specified in this paragraph, and thereafter the Subscriber shall continue to remit to PA only the additional assessments as set forth in paragraph "c".

SUPPLEMENTAL AGREEMENT FOR AUDIO NEWS SERVICE

This agreement supplements the Membership Agreement between The Associated Press ("AP") and Pres. & Fellows of Middlebury Col., the owner(s)-licensee(s) of its station(s) WRMC FM, Middlebury, Vermont. Except to the extent inconsistent herewith, all provisions of the Membership Agreement are incorporated herein and shall remain applicable to the parties throughout the term of this agreement. (References to the "Service" shall be deemed also to apply to the audio news service.)

a. AP agrees to grant the Member access to an audio news service which the Member may use only for the purposes of broadcasting through the facilities of the above station(s), and for which the Member agrees to pay an additional assessment. Notwithstanding paragraph 4 of the Membership Agreement, the Member will assume the responsibility and expense of providing its own equipment for the audio news service and of transmitting this service to the above station(s) from the nearest communication point to which AP regularly transmits it. If requested by the Member, however, AP will arrange on the basis set forth in paragraph "d" for transmission of the audio news service from such nearest point to the above station(s).

b. This supplemental agreement shall be effective as of September 2, 1979, or the the first date upon which AP actually provides access to the audio service to the Member, whichever is earlier. This agreement shall continue in effect for a term of ~~two~~ years following the first date upon which the audio service is furnished hereunder to the Member. It shall remain in effect for successive ~~two~~-year terms, unless terminated as provided herein. Either party may terminate this agreement, effective at the end of the first or any subsequent term, by written notice submitted to the other by certified mail, return receipt requested, not less than six months prior to the end of such term. See b-1 on reverse.

c. The additional assessment payable by the Member for the access to the audio news service shall be (1) $ 43.30 weekly, unless otherwise fixed by the Board of Directors of AP as provided in the AP By-Laws. The Member's right of termination as set forth in Article 8 of the Membership Agreement shall apply similarly to variations in these additional assessments. For the purposes of Article 10 of the Membership Agreement, the additional weekly assessments applicable to each separate business on account of the audio news service, notwithstanding the amount specified in this paragraph and unless they are otherwise fixed by the AP Board of Directors as provided in the By-Laws of AP, shall be $ n/a, AM; and $ 43.30, FM.

d. If the Member requests AP to arrange for transmission of the audio news service to the above station(s) from the nearest communication point to which AP regularly transmits it, the Member shall also reimburse AP in advance an amount determined by AP. This reimbursement shall total (2) $ 39.35 weekly unless altered as provided below, and shall be remitted to AP along with the Member's weekly assessments. (Failure to remit reimbursements shall be deemed to be a failure to pay assessments.) AP may alter the amount of the reimbursement only if its delivery expenses increase as a result of changes in communications tariffs or in the nearest communication point to which AP regularly transmits the audio service, or otherwise. The amount of the reimbursement may then be varied accordingly, and, in any such event, the last sentence of Article 8 of the Membership Agreement shall not apply. The Member may at any time, upon 30 days' prior written notice, withdraw its request that AP arrange for the transmission specified in this paragraph, and thereafter the Member shall continue to remit to AP only the additional assessments as set forth in paragraph "c".

Processing of Monthly Payment to

Press Association

October 4, 1979

J. Flickinger

I am enclosing the October 1, 1979 Press Association bill for AP service for the month of October in the amount of $560.

As we discussed recently, I would like Purchasing to receive and handle these bills on a routine basis so that we can be sure they are paid promptly and are not overlooked during vacation periods.

Would you arrange to have the bills sent to Purchasing? I am attaching a photocopy of our agreement with Press Association for your use. The bill for September has been paid, and I would appreciate your taking care of all bills from October on.

The account to be charged is 99-348.

Many thanks.

Dear Mr. O'Brien:

Attached is a photocopy of a UPI bill dated October 1, 1979 showing an amount due of $238.96. Attached also is a copy of my letter to you about a September 1 bill for the same amount.

I would much appreciate it if you would straighten out the UPI records so that we no longer receive these monthly statements. As I pointed out in my October 3 letter, Middlebury College made one payment for the entire year's service (1978-1979 academic year) and no longer subscribes to UPI, so that we should not now be billed any further.

Sincerely yours,

Re: WRMC-FM Press Association Charges

I am sending you the attached letter from Press Association, Inc. just to keep you informed of recent developments. The increase announced in the letter does not apply to WRMC at this time. I called James Smith, Senior Broadcast Executive of the Associated Press to discuss the unexpected increase with him, and he told me the letter should not have been sent to us, as the increase did not apply to contracts signed within the past six months.

He checked with the New York office to make sure his understanding was correct and called me back last Friday to confirm that the increase does not apply to us.

Knowing that the computer does not always reflect changes of this kind, I'd appreciate it if you would watch the January billing to be sure our rate remains at $140 per week.

We have also requested a suspension of service from December 17 to January 7. By terms of our agreement, we should be charged only $25 for this period. I would not be surprised if this adjustment is not reflected in the next bill, however, and would expect it to show as a credit against the February billing.

PRESS ASSOCIATION SUBSCRIBERS

Dear Subscriber:

To assist in your 1980 budget planning, I would like to advise you of a decision made by the Board of Directors of The Associated Press on behalf of Press Association, Inc., the subsidiary through which Associated Press service is provided you.

The Board directed a general increase of 11.4 percent for all AP member newspapers and broadcast stations, and for all Press Association subscribers. The increase becomes effective January 6, 1980.

The action followed an in-depth review of all existing and anticipated expenses faced by The Associated Press during 1980. All of us are too aware of the pressures of inflation. Additionally, 1980 is a Presidential Election and Olympics year.

Despite the enormous costs we face to provide news coverage for our subscribers in the coming year, the action of the Board of Directors has kept the amount of the modification substantially below the increase in the cost of living in this country.

We appreciate your understanding of the need for this adjustment. At the same time, we feel obligated to provide extensive coverage of the events of 1980 which will surely leave an impact on everyone.

Sincerely,

November 26, 1980

Dear Subscriber:

The Board of Directors of The Associated Press has increased assessments to all members of The AP by 10.7 percent effective January 25, 1981. In taking that action, the Board also increased the fee by that amount to subscribers to AP news services provided through The AP's wholly owned subsidiary, Press Association, Inc. The effective date is also January 25, 1981.

Before taking the action the Board scrutinized in great detail the operating and capital budgets for 1981.

On the operating side, the bill from American Telephone and Telegraph for delivering various AP services will be reduced by nearly $900,000 during 1981. That is because of advances in conversion of our communications network from landlines to a satellite. Higher savings are indicated in future years.

At the same time, the cost of gathering news throughout the United States and the world is expected to rise 15.8 percent. Overhead costs including office supplies, rent, taxes and so forth are expected to increase by similar or greater amounts.

Inflation continues at an annual rate of nearly 13 percent in the United States, and at even higher levels in other parts of the world.

AP's management has been asked to operate substantially below the rise in cost of living around the world and to continue to effect every economy possible.

We appreciate your understanding that the increase is unavoidable in these inflationary times.

Sincerely,

Ray Manford

Re: Press Association Billing

Date: June 29, 1982

I have tried to reconstruct what the billing should be for WRMC's AP service for the period June and July.

It becomes complicated because we order total suspension for the period May 23 to June 20, partial suspension for the period June 20 to August 16, and total suspension for the period August 16 to September 6.

My letter of April 29 which you have in your files (photocopy attached) orders these suspensions and lists the per/week cost of each type of service.

By my calculations we owe AP $332.35 through July 31.

Due through June 26 (credit)	($ 130.75)	
Phone Maintenance thru 7/31	41.00	(5 weeks @ $8.20)
Teletype Service 6/19-6/26	70.35	(1 week @ $70.35)
Teletype Service thru 7/31	351.75	(5 weeks @ $70.35)
Net Balance	$ 332.35	

If this is not clear to you and you'd like further explanation, give me a call.

6/28

Jackie,
Could you please help me to understand these 2 bills - The first one looks like we still have a credit of $130.75 - If that is correct why the other bill for $41.00 - help -

Thanks

My only question on these Press Assoc. bills is:

(1) Did they ever notify you of an increase in rates?

Jackson ?

Share record of phone conversation with them in April '82 and rates then were Teletype 70.35 / Audio 101.40 } weekly

increase!

(2) They now quote $188.10 per week with $111.05 week for Audio, which means the Teletype must be $77.05. It seems they should inform us when rates

This letter is to inform you of action taken by the Board of Directors of The Associated Press pertaining to its wholly-owned subsidiary, Press Association, Inc. through which we provide service to your system.

After careful study of the operating budget requirements for 1984, the Board has authorized a 5.5 percent general assessment increase that will be effective January 15, 1984 for all AP Members and Subscribers.

Next year will be extraordinary in terms of news events which must be fully covered and the cost of providing that coverage. The presential primaries, nominating conventions, campaigns, as well as the Winter and Summer Olympics, will add $5.3 million to our budget for 1984.

The Board concluded, therefore, that the increase was necessary. It is the lowest since 1971.

As this letter is written, we are confronted with what could be an enormous AT&T rate increase for 1984. The new tariff filed with the FCC would increase AP's communications costs by more than $8 million -- a 69 percent increase.

We intend to protest and obtain a reduction in that proposed tariff. In addition, our domestic satellite conversion program is at full speed to help offset the impact of the AT&T changes.

We appreciate your understanding of the need to impose this modest increase in order to continue providing your subscribers with the finest and most complete text news services.

Sincerely,

RS/lp

Dear Mr. Charbat,

Enclosed is the contract for the use of the Associated Press automatic printer service, beginning October 23, 1988.

You will note the addition of paragraph 10, which states:

> It is agreed that service to WRMC-FM may be suspended not more than twice annually during vacation months and that subscriber will advice Press Association at least 30 days prior to the beginning of such vacation as to the dates of suspension, provided such suspension exceeds twenty-one days.

Please note also that we have processed two invoices for payment to the Press Association already:

> a. Resumption of assessments for AP network news service and Vermont radio wire service, in the amount of $428.07. Your invoice # 242208.
> b. AP radio for the time period September 25 to October 29 in the amount of $680.50. Your invoice #102011.

I have consulted Mrs. Flickinger, with whom you originally negotiated, regarding the issue of an annual fee versus the quarterly billing she requested. Because of our accounting system, she has advised that we continue to request the quarterly billing despite the additional $151.30 fee.

Thank you for your help. I assume we will be receiving an executed copy of the contract and an invoice for the first quarterly installment.

Sincerely,

Catherine Walsh

Dear Kathy:

Enclosed are revised agreements for Newspower service effective January 24, 1989 for WRMC-FM, Middlebury College. Before things get too confusing, let me explain.

In light of Middlebury's specific requests for suspension of service throughout their school year, Associated Press Broadcast Services in Washington, DC requests your previously authorized fifty two week agreement be replaced with the enclosed thirty nine week agreement.

Simply stated, Middlebury College should not pay for fifty two weeks of service when their actual need is closer to thirty nine weeks during a fifty two week year.

Please understand the enclosed agreements will supersede the one's signed last November.

The effective date is January 24, 1989, the day Newspower became effective at WRMC-FM.

Your previously submitted suspension request schedule is still on file in Washington and will be followed until further notice.

Please call if you have questions. If there are no questions, please sign and forward the enclosed agreements to the the address listed below.

Thanks for your patience and cooperation.

Sincerely,

Dear Ken:

After our phone conversation last week, I checked with our Purchasing Department regarding the terms of the new agreement. During that conversation I learned that we have paid for "Radio VT" service at a rate of $98.55 weekly through May 22, 1989. We have also received a credit for May 22 through June 24, during which time our service was suspended. Copies of the invoices are enclosed.

You stated that we should not have been billed after January 24, 1989, the time at which the rates changed. This leads me to question again whether we are referring to the same service. None of the invoices refer to "Newspower."

I would appreciate your checking to confirm which services we are being billed for. Perhaps Catherine Barna, whose name appears on the credit memo, can straighten this out. I am holding the Newspower agreement until I hear from you.

Thanks in advance for your help.

Sincerely,

Catherine S. Walsh

NewsDesk: Computer Friendly, Member Friendly

By Andrea Weisgerber
Assistant Director/Technology
AP Broadcast Services

The AP's newest technology for broadcasters hasn't hit the market yet, and already it's getting rave reviews.

AP NewsDesk is computer software designed to run on any highspeed AP circuit into an IBM-compatible PC. The software receives the wire and sorts it into member-generated categories, and allows users to edit the incoming AP stories as well as write their own copy.

Members will require an IBM PC, XT, AT, or PS/2 or a compatible IBM clone, with at least 640k of RAM, and a minimum 20-megabyte hard drive. The system performs most efficiently on an AT-class machine, and a larger hard drive will allow for more storage.

Lee Perryman, who designed AP NewsDesk, is supervising its development.

Nine member broadcast stations were Beta-testing the software as of mid-May, and bureaus that serve those stations were testing it too. Another 20 Beta sites were planned.

NewsDesk was designed for both the computer guru in a news shop and for staff members who are not computer-friendly. It is menu-driven, meaning that users can find their way around the computer by making selections from pop-up and pull-down windows.

AP NewsDesk scans the wire and moves copy into eight standard wire categories: national and international news; state/regional news; business/financial news; features/entertainment; farm/agricultural; sports; weather, and advisories. Most of these categories are then subdivided into smaller categories—all reachable by menu commands.

In addition, AP NewsDesk has an "All Stories" queue, which holds roughly two hours of all incoming copy, a "Bulletins" queue, and a queue called "Additional Categories," which allows members to set up their own categories of special interest. That way, a member who wants to put all local stories in one place can set up a new category to meet that need.

Using the same logic, NewsDesk users can send stories automatically to their printers, so that even if a radio station newsroom is unstaffed, for instance, disc jockeys can still receive weather forecasts, scores and regional news. The computer can be told to automatically print these items so that they're available to the announcer without using the computer.

NewsDesk includes an easy-to-use editor that allows users to edit wire copy, and combine it with their own copy to produce newscasts, as well as a word search function that allows members to search for stories efficiently.

Members also will be able to set their own kill clocks, from zero to 48 hours, for different categories of copy, and to set their own alarms. Plans also call for a "Send AP" feature that will allow members to electronically send local stories to AP bureaus.

Included in the package is an assignment calendar, telephone book and calculator, as well as an atlas, which has proved to be the most popular feature of all. Members can call up a state map, pinpoint a city and compute distances.

The atlas also will have interstate highway overlays, military base and airport locations to help a member station decide whether to send a crew to a news event.

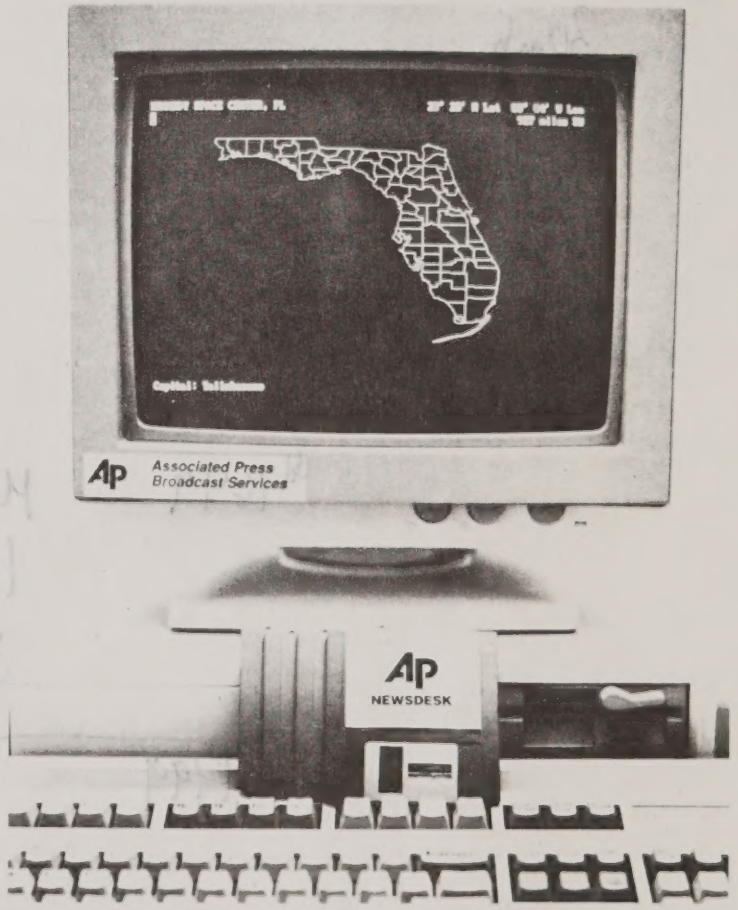
The software is designed to run in the background, meaning it will continue to receive copy if the user is running another program.

Although designed for broadcast newsrooms, NewsDesk also has applications for newspapers, AP bureaus and in foreign markets.

Software assistance will be available 24 hours a day from Broadcast Services in Washington.

Plans call for AP NewsDesk to be marketed late this summer.

AP NewsDesk was designed for both the computer guru and the user who is not as computer-oriented.



AP NewsDesk is designed to make news gathering easier for broadcasters. The computer software is menu-driven, so even those staff members who aren't computer pros can find their way around the system easily and quickly. NewsDesk includes software that allows users to call up a state map on their screen.

Mrs. Walsh,

Here at WRMC we currently receive our news via an Associated Press Teletype. We would like to upgrade this system to a software-based A.P. News service called NewsDesk. NewsDesk provides the same information as the Teletype, but the stories are editable and automatically categorized; it is the latest in A.P. informations technology and would be a great professional tool .

With the current system, everything that is transmitted by A.P. is printed out; stories ranging from world news to local weather are jumbled together. The news staff must sort through an old stack of printouts and select relevant stories to use in each report. The Newsdesk system stores and categorizes all recent stories; the staff will be able to quickly sort through all stories and print only the necessary ones. Under the current 24-hour printing system, the A.P. printer is prone to mechanical failure; such failure would be unlikely with the computer-based Newsdesk.

The News Department broadcasts two reports per day: a noon report and an evening report. Newsdesk would help to increase the professionalism of these reports. The Newsdesk service costs $260 per year more than the current service, a reasonable cost considering how much more we would be able to get out of the A.P. subscription.

I am writing to propose the purchase of the necessary hardware: a 640k IBM computer with a 20 megabyte hard disk and printer. After speaking with Mr. Hadley in Administrative Computing, I am requesting the purchase of one IBM PS/2 computer ($837) with 20 megabyte hard disk ($472) and a Pro Printer 2 model #4201 ($269). These prices were quoted to me by Mr. Hadley and represent a substantial discount below retail prices. In fact, this IBM system cost ($1578) is less than that of an IBM-compatable Epson system ($1599) from Computer Alternatives downtown.

In addition to the hardware, I am requesting the purchase of a service contract with IBM. For $228.23 the contract will cover any failure in the PS/2 and hard disk for five years. This contract is particularly important since if the

computer fails, WRMC will be without its primary source for local news and weather.

The total system cost should then be $1806.23 plus minimal installation. The WRMC board has unanimously approved making this purchase from our reserve accounts. This one-time computer purchase will allow WRMC to provide the highest quality new services for years to come.

Respectfully Submitted,

Dan Hanson

Dear Ken:

Enclosed please find executed copies of the NewDesk agreement and option sheet. I understand that the installation of the software may take another two to three weeks, depending upon the backlog you are experiencing this summer.

Could you please let me know when we could expect to receive the software, and what the installation process is. Does an AP representative visit the campus? Who is responsible for collecting the old equipment?

Thanks again for your attention to this matter.

- color or monochrome display adapter (MDA, Hercules monographic, CGA, MCGA, EGA or VGA), with compatible color or monochrome monitor
- one 1,200-baud or 2,400-baud Hayes compatible modem (optional, for phonebook autodialing and for contributing your stories to the nearest AP news bureau)

There are varying definitions of IBM "compatibility." Because hardware and software add-ons and add-ins affect compatibility, it is impractical for us to provide a list of compatible computers. If you have a question about systems, please call 1-800-232-7241.

Known Computer Incompatibilities:

Radio Shack/Tandy 1000-series PCs do not have a standard DB-25 printer connector and are not supported.
The AT&T 6310 (and other members of the 6300 family) may not be compatible. Some will not run DOS versions later than 3.2.
The Wells-American A-Star/286 with ROM BIOS dated prior to 1/15/87 is acceptable but is not fully compatible.
Most Radio Shack/Tandy printers are not IBM compatible without hardware modification.

Additional technical documnetation is available upon request.

Video Card Incompatibilities:

AP NewsDesk requires a video display card that is 100-percent compatible with an IBM CGA, MCGA, EGA, VGA or Hercules monochrome card. According to testing by Microsoft and AP, the following cards had various problems ranging from hanging the machine to causing an unreadable display:

ATi VIP card
Any Boca Research video card
Genoa SuperVGA HiRes
Nokia VGA
Older Quadram CGA cards
Sigma EGA
ATi VGA Wonder
Everex EGA
NEC EGA
Paradise MGC
Quadram VGA
Sigma VGA
VIP ATi VGA
Vega Video Seven Fastwrite VGA
Vega Video Seven VGA
Unisys CGA
Tecmar VGA (ROM v1.08, v1.09)

Disk Partitioning Problems:

Until DOS 4.0x, hard disk partitions were limited to 32 megabytes. Special disk partitioning utilities are sometimes used with earlier versions of DOS to permit access to larger amounts of disk space as a single volume.

PC-DOS 4.0x and MS-DOS 4.0x offer the only "official" IBM/Microsoft support for partitions greater than 32mb. Many non-standard partitioning schemes will cause problems when used with AP NewsDesk and/or third-party disk caching utilities.
According to Microsoft, problem software includes:

Disk Manager by Ontrack & Seagate (using device driver DMDRVR.BIN)
Priam disk partitioning (supplied with Priam hard disks)
Golden Bow V-Feature Deluxe
Partitioning used by CORE hard disks
Any system with a XENIX or UNIX partition on the hard disk

AP NewsDesk may not function properly on a system using one of the above methods for disk partitioning. Similar utilities may or may not cause problems.

Dear Cathy:

Thank you for returning the NewsDesk agreements. Your staff will wonder how they ever got along without it!

Your service will be effective on or before August 7th. An AP technician will contact you to arrange a convenient installation time, date, etc.

NewsDesk is menu driven. This means those using the system can learn to use it by simply following the instructions displayed on the screen after it has been installed.

A complete users manual is provided at installation.

If you would like me to arrange a personal visit to assist in running NewsDesk, just give me a call.

AP will pick up its printer 30 days from the day NewsDesk becomes effective. This gives station personnel plenty of time to learn NewsDesk while being able to "fall back" on the printer if something should go wrong.

As always, please call if you should have any questions or concerns.

Dear Cathy:

It was good to see you again. Thank you for your time to discuss AP and WRMC.

I'm encouraged that the wire is getting so much use by the students. I hope the commitment to news at WRMC continues, and AP continues to play a vital role.

As we discussed, the presence of AP Network News at the station could provide for a more realistic learning environment for students interested in news and production. And it would allow the station to have a professional and polished sound. Of course, it requires the equipment to handle the network (a reel-to-reel) and the commitment of the students to utilize it. It would help if there was a College staffer who could train new students every year. This would ensure greater usage.

I hope you will consider AP Network News. I feel it would be a great learning opportunity. Please feel free to call if I can be of any assistance.

Dear Subscriber:

For 1991 budget planning, this is to remind you of an upcoming change in rates for your news services.

Effective January 20, 1991, the Associated Press and Press Association Inc. will institute a 3.9 percent increase in charges. Notification was transmitted on AP news wires following action by the Board of Directors in September.

The increase is well below the projected inflation rate for 1990 and 1991 and, in percentage terms, is the smallest increase in three years. It was possible to keep the increase at that figure only through a vigorous cost control effort and through an ongoing effort to develop new sources of revenue.

We appreciate your understanding and continued support.
